JC APEX VENTURES (OPC) PVT. LTD.

COMPANY PROFILE

Power, energy and fit-out for your building, *from one desk.*

One accountable desk for your building's power, energy and fit-out: engineering, approvals and execution together.

www.jcapexv.com

02

WHO WE ARE

Six specialist divisions. One point of contact.

JC Apex Ventures (OPC) Pvt. Ltd. is a Mumbai company with six specialist divisions. A client with an electrical, clean-energy, utility, interior, brand or project finance requirement deals with one desk, not a chain of separate contractors. Each division is run by specialists in its own field; the group brings them together when a project needs more than one. The company is new; the experience behind it is not.

Led by Jitendra Chavan, 36+ years inside Mumbai's power utility.

1 MW+	14	4
solar across four plants	hotel properties, HT electrical work	Mumbai utilities we work with

How we work with clients

One point of contact	The client deals with one person, whichever divisions the project needs.
Specialists	Each division is led by people who do that work every day.
Facts we can show	Capacities, dates and sites come from documents on file.
Clear scope	Every quote says what is included and what is not.

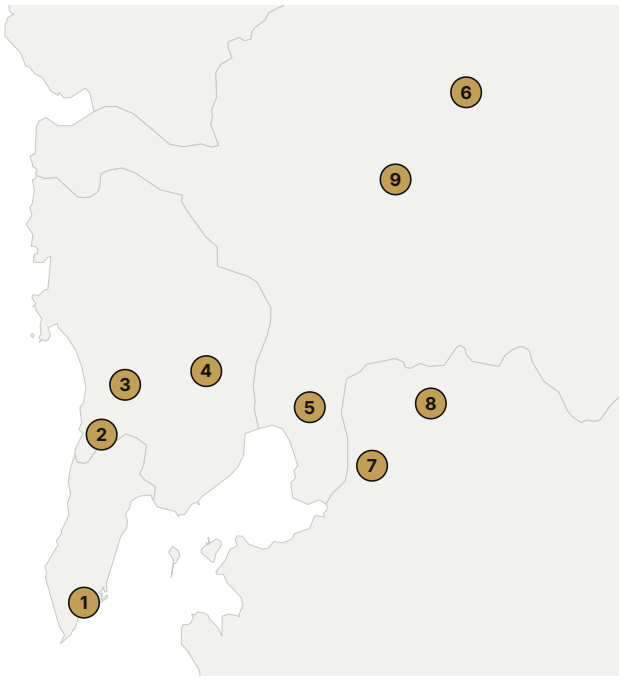

Our Director (right) with members of the team, Mumbai, October 2026

03

TRACK RECORD

1 MW+ of solar, and HT work at 14 hotels.

Delivered under the technical leadership of our Director.

Mumbai region. Boundaries: geoBoundaries (DataMeet India, CC BY 2.5 IN; Pathways Data and lgdirectory.gov.in, ODbL). Locations approximate.

HT electrical work for hospitality (Grid Apex)

1. **Colaba to Nariman Point**
   five properties
2. **Bandra and BKC**
   two properties
3. **Santacruz and Andheri**
   three properties
4. **Vikhroli**
   one property
5. **Turbhe**
   one property

Also one property each in Aurangabad, Maharashtra, and Jodhpur, Rajasthan.

Solar power plants (Solis)

6. **Tolia Ball & Roller LLP**
   691.20 kWp · Vashere, Bhiwandi · March 2025
7. **CGST & Central Excise Building**
   84 kWp · Sector 7, Kharghar, Navi Mumbai · October 2022
8. **Pristo Pipes and Fittings**
   180 kWp · Taloja MIDC, Navi Mumbai · August 2022
9. **Devharsh Infotech Pvt. Ltd.**
   100 kW · Bhoomi World, Pimplas, Bhiwandi · June 2016

Creative work led by Manish Ajgaonkar, our Creative Director. His credits include Gowardhan, Go Cheese, Vadilal, BluePond, Kaya Derma Naturals, Avvatar Nutrition, Citroën India, Club Mahindra, Asian Paints Royale, WPP, RESET, Orange, Disney and Samsonite. Details of every project are in the division profiles.

04

CLIENTS

Hotels that have trusted us with their HT supply.

The Taj Mahal Palace, Colaba

Taj Lands End, Bandra

Trident, Bandra Kurla

Hotel	Place	Work
The Taj Mahal Palace	Colaba, Mumbai	HT electrical work
Taj Wellington Mews	Colaba, Mumbai	HT electrical work
President, IHCL SeleQtions	Cuffe Parade, Mumbai	HT electrical work
The Oberoi	Nariman Point, Mumbai	HT electrical work
Trident, Nariman Point	Nariman Point, Mumbai	HT electrical work
Taj Lands End	Bandra, Mumbai	HT electrical work
Trident, Bandra Kurla	Bandra Kurla Complex, Mumbai	HT electrical work
Taj Santacruz	Santacruz, Mumbai	HT electrical work
Taj The Trees	Vikhroli, Mumbai	HT electrical work
TajSATS	Andheri, Mumbai	HT electrical work
Oberoi Airport Services	Andheri, Mumbai	HT electrical work
Vivanta Navi Mumbai	Turbhe, Navi Mumbai	HT electrical work
Vivanta Aurangabad	Aurangabad	HT electrical work
Taj Hari Mahal	Jodhpur	HT electrical work

Hotel names are given as they are today. Photographs show the properties, not our installations.

05

DIVISIONS · 1 OF 3

GRID APEX

Representative image

HT and LT electrical work, installed, tested and maintained.

Line of work	What it covers
HT works	HT installation and commissioning; HT panel and switchgear works; transformer installation, testing and maintenance; underground and overhead HT cable laying; distribution system support
LT works	Wiring for residential, commercial and industrial premises; LT panels and distribution boards; indoor and outdoor lighting; earthing and lightning protection
Maintenance and AMC	Preventive maintenance, testing, breakdown support and annual maintenance contracts

Hospitality, industrial, commercial and residential sites. Track record in the Grid Apex profile.

www.jcapexv.com/grid-apex

Solis.

Representative image

Solar and EV charging, from site survey to net meter.

Line of work	What it covers
Solar power plants	Design, supply, installation, testing and commissioning of on-grid plants for factories, offices, institutions and housing societies
Elevated solar pergolas	Panels raised on a steel frame high enough to walk under, so the terrace stays usable
BIPV glass	Solar glass for canopies, skylights and facades that generates power and lets in daylight
EV charging	AC and DC chargers for housing societies, offices and commercial sites, with the load extension handled through Sanyog
Net metering and subsidies	Net-metering applications with the utility, and PM Surya Ghar subsidy paperwork for homes and housing societies
On-site waste treatment	Segregation, collection and on-site treatment of organic and inorganic waste for housing societies, campuses and businesses

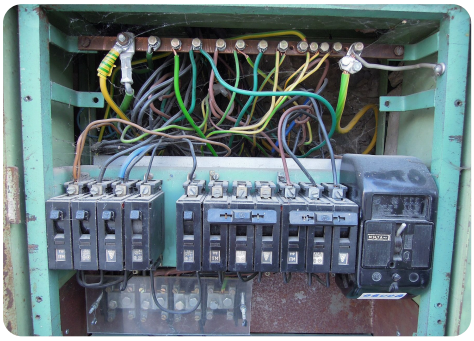

Four completed plants, 2016 to 2025. Details in the Solis profile.

06

DIVISIONS · 2 OF 3

SANYOG

Representative image

Works with BEST, Adani Electricity, Tata Power and MSEDCL, and before the CGRF.

www.jcapexv.com/sanyog

Power connections, load changes and bill disputes, handled for you.

Line of work	What it covers
Connections	New power supply connections; temporary supply for construction
Load and phase	Sanctioned load extensions (for lifts, EV charging, air conditioning); single-phase to three-phase conversion
Records and billing	Change of name and billing address; electricity bill and tariff category issues
Complaints and compliance	CGRF consumer grievances; HT complaints; meter disconnections; wiring test reports arranged through a licensed electrical contractor
Licences	Electrical licence applications through the PWD Electrical Inspectorate

tvasta.

Representative image

Standard, Premium and Luxury tiers; three architects and three interior designers.

www.jcapexv.com/tvasta

Interiors designed and built by one team, in three clear tiers.

Line of work	What it covers
Space planning	Residential and commercial layouts, material and finish planning, lighting composition
Interior design	Modular kitchens, carpentry, wardrobes and storage, wall finishes, architectural lighting
Turnkey execution	Civil work, electrical fit-out, coordinated site execution, finishing

07

DIVISIONS · 3 OF 3

Mudran

Representative image

Creative direction by Manish Ajgaonkar; production led by Hemangi Patil, 22+ years in print.

www.jcapexv.com/emudran

Brand, packaging, signage and print, from concept to installation.

Line of work	What it covers
Brand design	Corporate identity and brand guides; product packaging; campaign media; company profiles, brochures and creative assets
Signage and display	3D acrylic and steel letters; glow, LED, ACP and acrylic boards; flex and vinyl banners; society notice and site signage; survey and mounting
Commercial print	Stationery, brochures and catalogues; ID cards, certificates and registers; bill and receipt books; digital and four-colour offset; large-format, backlit and vehicle graphics
Digital and field	Business websites and landing pages; domain, hosting and email set-up; vehicle and glass branding

Agrim

Representative image

Works from the engineering division's cost sheet, so the loan file and the project agree.

www.jcapexv.com/agrim

We prepare and coordinate your project loan needs. We don't lend.

Line of work	What it covers
Project loan requirements	Working out what the project needs and preparing the information a lender will ask for
Advance requirements	Planning milestone advances connected with the project work
Understanding financial needs	Explaining the project's costs and cash needs in plain terms
Coordination	Aligning the project scope, schedule and paperwork with the client's lender

08

ONE DESK

When a project needs several divisions, the client still has one point of contact.

An illustrative example: a housing society that wants rooftop solar and EV charging for its residents.

1 **Sanyog checks the supply**
It reviews the society's connection and files the load extension the chargers will need.

2 **Solis designs and builds**
The plant and the chargers are installed, then the net-metering application is filed.

3 **Grid Apex upgrades if needed**
If the survey shows the distribution board or earthing needs work, Grid Apex does it.

4 **Agrim prepares the loan file**
If the society needs a loan, Agrim prepares the requirement for its bank.

5 **eMudran makes the signs**
EV parking signs and the plant's site board, in English, Marathi and Hindi.

Illustrative example of how the divisions work together; not a description of a specific project.
